

- Existing Trees
- Existing Vegetation to be Managed
- New Trees
- Amenity Grass
- Evergreen Heavy Mixed Native Hedge

Copse of smaller trees in-filling a gap in the existing trees. Trees are 5m apart from each other.

4m strip of grass between road and new hedge and copse.

Native mixed hedge with a greater proportion of evergreen species to create a screen between the main road and the nearby housing. Larger trees placed in the hedge at 7m intervals.

Dead planting removed, overgrown planting cut back, ivy and brambles removed. Gaps created and understorey replaced with new shrub planting.

Scale 1:1000
