

Barton village – Barton Greenway

Important information regarding upcoming road closures

Notice of road closures affecting New Road, Comberton Road and surrounding roads.

Dates: Monday 12 January – Monday 19 January 2026 (excluding weekends)

Hours: 8pm – 6am

Dear Residents and Businesses,

Further to our previous letter, we are writing to confirm that works will take place between Monday 12 January and Monday 19 January to complete carriageway and footway surfacing in Barton village. These works will require road closures.

Vehicles will need to follow a defined diversion route during working hours. Pedestrians and cyclists will be able to use the footways throughout the works. Following the completion of works each night, the road will be fully opened to all users for use during daytime hours (6am – 8pm).

You may experience some noise while we carry out these works. We apologise for any inconvenience this may cause and will endeavour to complete the noisiest works as early as possible.

Please be aware that these works are weather dependent, and it is possible that poor conditions may lead to delays or schedule changes.

Diversion route arrangements

Please see the works areas and diversion routes maps on the following pages.

Access requirements

During overnight road closures, members of the team will be available to provide access to properties located within the closure point for residents and visitors. We kindly ask that residents approach the road closure at the point closest to their property, where the team will safely escort you to your property.

We will try to maintain access for residents throughout the road closures. However, some delays should be expected. If you require specific access arrangements during

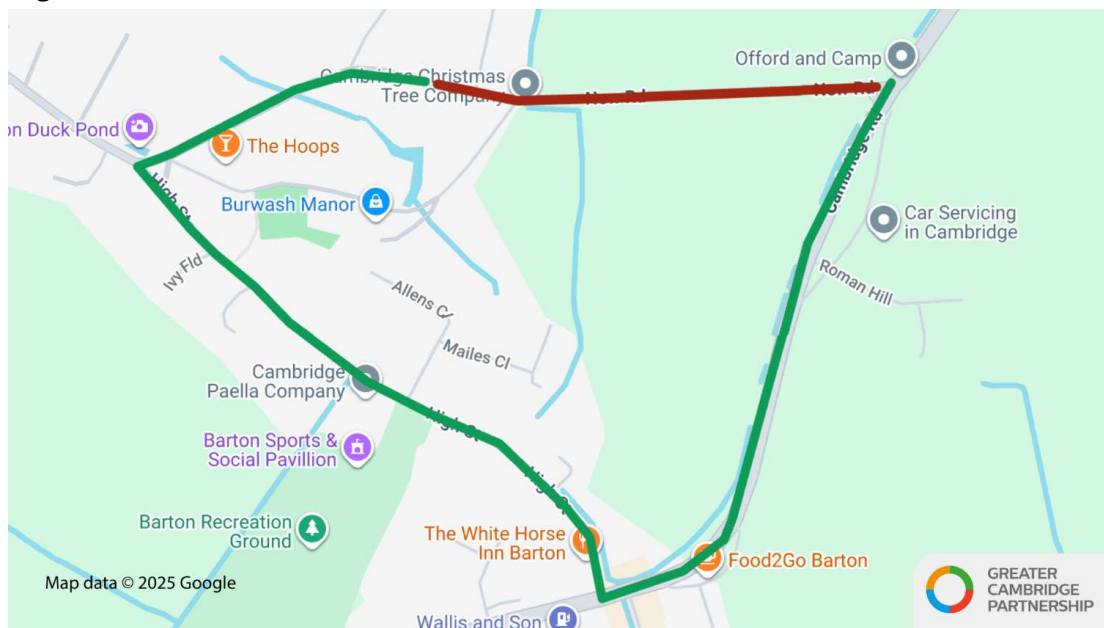

working hours, please get in touch via the contact details provided below to discuss these ahead of works starting.

Emergency access will be maintained 24/7.

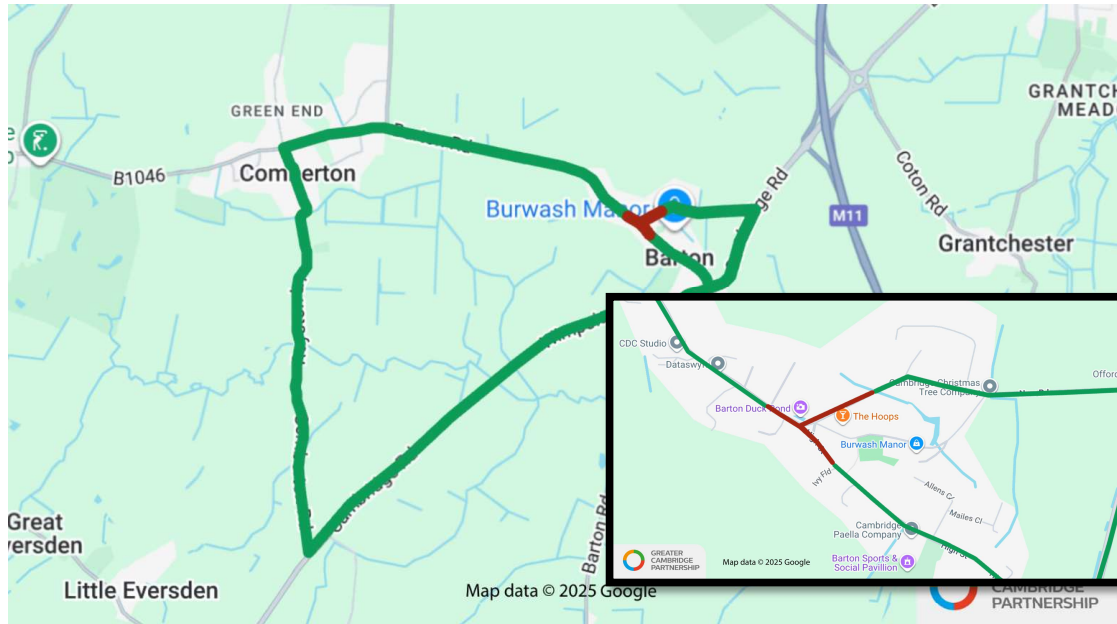

Customer contact

If you have any questions, concerns, or comments, please email greenways@milestoneinfra.co.uk or call our customer service line on 0800 0281363.

Diversion route for nights of Monday 12 and Friday 16 January 2026 (two nights)
